

FRENCH CANOPY AWNING

Bayside Awning Centre's French canopies are constructed with extruded aluminium frames or optionally steel tube frames to allow special shaping.

Custom made canopy comes in any size up to 6000mm long with a maximum projection of 1800mm.

French Canopies can be covered in a range of fabrics, from canvas, acrylic canvas, shade mesh and PVC coated textiles, for maximum sun and weather protection.

Over 100 colours available to suit any domestic or commercial building environment or to promote a corporate image.

The French Canopies are designed so if the fabric is damaged or a new colour desired it can be replaced with relative ease.
